Building Students to Impact the World

## INDEPENDENT LEARNING PROGRAM (ILP) POLICIES

CFS believes in and supports Independent Learning for qualified students. We believe that it is a privilege, not a right, for students to participate in this program, and CFS reserves the right to deny entrance into CFS through the Independent Learning program to any student.

To participate in ILP, we require all students to:

- Enroll in CFS and follow the CFS code of conduct,
- Register for no more than 3 courses offered by CFS,
- Meet all CFS graduation requirements,
- Be on the CFS campus only during their CFS class times.
- Fill out all necessary paperwork,
- Determine what courses to take to meet CFS graduation requirements,
- Meet WIAA regulations if he or she is an athlete

Since Independent Learning students are not full-time students, full-time benefits and privileges are waived. These benefits include but are not limited to: use of the library and computer lab, and full-time access to the CFS guidance counselor. We do expect however that our Independent Learning students adhere to the behavioral and spiritual standards including but not limited to all rules, policies, and procedures of Christian Faith School. Finally, it is important that all Independent Learning students remember that they are not allowed on campus except during class times. They may, however, participate in school events on or off campus with permission and proper documentation.

\*\*\*\*\*

I have read and understand the Christian Faith School Independent Learning Program Policies.
